## SUMMARY

I'm a currently a Computer Science student at Trincomalee Campus, Eastern University of Sri Lanka. Enthusiastic Computer Science undergraduate with a passion for learning and creativity. Skilled in Python, UI/UX design, React, Node.js, and MongoDB. Proven experience in developing a full-stack authentication system. Eager to embrace new technologies and challenges. Inspired by continuous growth and driven by a genuine interest in the tech industry. Ready to contribute to cutting-edge projects and be part of a dynamic team.

## EDUCATION

### Bachelor of Computer Science [BCS]

Eastern University of Sri Lanka

06/2022 - Present

### Degree and Field of Study

Government Science College - Matale

2015 - 2019

### Degree and Field of Study

St. Thomas' College, Matale

## TRAINING / COURSES

Interactivity with JavaScript

Web Design for Beginners

Learning Python

## PROJECTS

### Authentication System

[https://github.com/LAHI-RU/login\\_signup\\_with\\_react](https://github.com/LAHI-RU/login_signup_with_react)

Full-stack Authentication System: Developed using the MERN stack (MongoDB, Express.js, React, Node.js). It includes user registration, login, and logout functionalities, secure password storage with Bcrypt, protected routes, JWT authentication, and password reset with Node mailer.

- Improved user experience with seamless login and signup
- Enhanced security with protected routes and secure password storage
- Increased user trust and confidence

## SKILLS

### Front End

React

HTML

CSS

JavaScript

### Back End

Nodejs

MongoDB

### Programming Languages

Python

Java

C++
